

Please do not enact a telephone privacy standard lower than the one in the state of Indiana. I used to receive about 10 calls a week. I now rarely receive an unsolicited phone call. I do not want companies I already do business with to have the right to cold call me for another product or an enhancement to a product I already use. If I want something, I am perfectly able to call and find it. PLEASE, PLEASE do not enact a policy that would usurp Indiana Legislation that has been very effective.

Regards,

Abby Smith-Deetz
